## PRINT-IT-YOURSELF DESIGN JOURNAL

$+x \times x \times x \times x+x+x^{x}+x \mid$ Various sizes of graph paper $x \leftarrow^{x} \times \psi_{x}+3_{x}^{x} x \psi^{x} x$ $x \times x^{x} \times \times x_{x}^{x} \times x_{x}^{x} \times$ for all your design needs, with $8.5 " \times 11$ " paper dimensions.

# STITCH PEOPLE'S CHARACTER DESIGN TEMPLATE 

For your reference and easy, printable access, this is the original Do-It-Yourself Stitch People Character Design Template. The graph paper is 7 squares per inch - twice as big as a character will appear on size 14 Aida fabric.

To print only the original Character Design Template, specify PAGE 3 in the print settings.

## ALTERNATE CHARACTER DESIGN TEMPLATE

The following character design template is similar to the original, but is catered to tracking your floss needs and other design notes, as opposed to tracking corresponding design "coordinates" from the book. There is room for four character designs; either four separate characters or four versions of the same character, as shown in the small template image to the right.

To print only the Alternate Character
Design Template, specify PAGE 5 in the print settings.

## SIZE 11 GRAPH PAPER

The following graph paper has 11 squares per inch. If you plan to use size 11 Aida fabric, this graph paper will show your design true to the size of what it will be when cross-stitched.

To print only the size 11 graph paper, specify PAGE 7 in the print settings.

THE EXAMPLE BELOW SHOWS HOW MANY ADULT-SIZED FIGURES CAN FIT ON THE SIZE 11 GRAPH PAPER

THE REFERENCE FIGURES IN THE EXAMPLE ARE 10 SQUARES WIDE AND 32 SQUARES TALL.
STITCH PEOPLE.

# 2X-SCALE SIZE 11 GRAPH PAPER 

The following graph paper has 11 squares per every two inches for greater visibility as you design. If you plan on using size 11 Aida fabric, this graph paper will show your designs at 2 x the actual cross-stitched size.

To print only the 2 x -scale size 11 graph paper, specify PAGE 9 in the print settings.

THE EXAMPLE BELOW SHOWS HOW MANY ADULT-SIZED FIGURES CAN FIT ON DX SIZE 11 GRAPH PAPER

THE REFERENCE FIGURES IN THE EXAMPLE ARE 10 SQUARES WIDE AND 32 SQUARES TALL.

## SIZE 14 GRAPH PAPER

The following graph paper has 14 squares per inch. If you plan to use size 14 Aida fabric, this graph paper will show your design true to the actual cross-stitched size. This graph is extremely small - you may have better success working with the double-size 14 graph paper or the slightly larger size 11 graph paper for an easier design experience.

To print only the size 14 graph paper, specify PAGE 11 in the print settings.

THE EXAMPLE BELOW SHOWS HOW MANY ADULT-SIZED
FIGURES CAN FIT ON SIZE 14 GRAPH PAPER

THE REFERENCE FIGURES IN THE EXAMPLE ARE 10 SQUARES WIDE AND 32 SQUARES TALL.
rer

# 2X-SCALE SIZE 14 GRAPH PAPER 

The following graph paper has 14 squares per every two inches. If you plan to use size 14 Aida fabric, this graph paper will show your design at ex the actual cross-stitched size.

To print only the 2 x -scale size 14 graph paper, specify PAGE 13 in the print settings.

THE EXAMPLE BELOW SHOWS HOW MANY ADULT-SIZED FIGURES CAN FIT ON 2X-SCALE SIZE 14 GRAPH PAPER

THE REFERENCE FIGURES IN THE EXAMPLE ARE 10 SQUARES WIDE AND 32 SQUARES TALL.

## LARGER GRAPH PAPERS

The following pages have two graph paper sizes: 10 and 5 , which have 10 squares per inch and 5 squares per inch, respectively. Both have thick lines every 10 squares for easy counting.

To print only size 10 graph paper, specify PAGE 15 in the print settings.

To print only size 5 graph paper, specify PAGE 16 in the print settings.

THE EXAMPLE BELOW SHOWS HOW
MANY ADULT-SIZED FIGURES CAN FIT ON SIZE 10 GRAPH PAPER

THE EXAMPLE BELOW SHOWS HOW MANY ADULT-SIZED FIGURES CAN FIT ON SIZE 5 GRAPH PAPER

THE REFERENCE FIGURES IN THE EXAMPLES ARE 10 SQUARES WIDE AND 32 SQUARES TALL.
