I have been cross stitching since 3rd grade and I've been learning embroidery to incorporate with my stitching. I love creating my own designs since finding Stitch People- from people, to houses, flowers, backgrounds and more! Along with stitching, I also love spending time with my family, reading, gardening, baking, and having fire pits with family and friends.

Tulips are one of my favorite spring flowers and I was excited to create this for the stitch along. I hope you enjoy it, too. Happy Stitching!
