

# PIT BULL / PIT BULL TERRIER

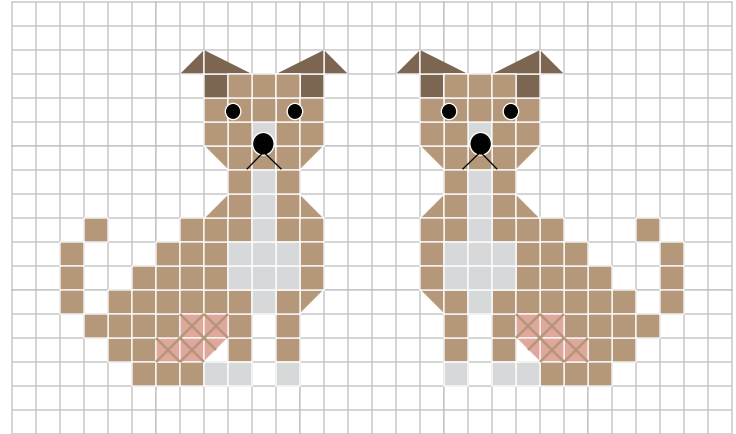

BY STITCH PEOPLE

DID YOU KNOW: PIT BULLS ARE NATURALLY FRIENDLY, AND HAVE NATURALLY LOVING TEMPERAMENTS

**PORTRAY YOUR FAVORITE PITTIE WITH THIS SWEET PATTERN**

Be sure to adjust the colors according to the specific dog you're stitching in your Stitch People portrait!

The placement and size of a pit bull's eyes and nose will have a big impact on the dog's overall look. Take care to keep the eyes smaller and farther apart, and keep the nose larger and centered.

If the pink color of the dog's skin shows through its fur, try using a combination of 2 strands of the fur color with one strand of pink.

Alternately, you could stitch the stomach area with 3 strands of pink floss, and then cross-stitch on top of those stitches with 1 strand of fur colored floss.
